

I am an XM Satellite Radio subscriber. The service has surpassed all of my expectations of what a radio station should offer. I have more choices to listen to news, weather, traffic and most importantly music I most enjoy at the touch of a button. My frustrations with local broadcasting is that it is limited in its ability to give complete and accurate details due to the time constraints of advertising and listenership demands. Here on XM I have the ability to listen to music non-stop or switch to a dedicated news, weather, or traffic station and get up to the minute information. Please don't let the National Association of Broadcasters petition 04-160 limit the choices and enjoyment I have been afforded through XM Radio.
